

**MONMOUTH COLLEGE DECLARATION OF INTENT TO APPLY  
FOR EXTERNAL FUNDING**

*This form must be completed (and signatures obtained) before the proposal is submitted. This is especially important in the case of NSF and other science grants (and federal grants more generally), wherein in-kind contributions, equipment requests, institutional matching funds, and other aspects of the proposal may have major financial and facilities-related impact on the College. However, it is also important so that the College can record proposal activity whether funded or not. An active grants program is valuable to the College in recruiting students, recruiting and retaining faculty, publicizing research and creative work, and heightening national recognition of the quality of Monmouth's academic program.*

**Proposal Title:**  
**Deadline for Proposal:**

**Grantor (Foundation or Agency) Name:**  
**Address:**

**Contact Person at the Foundation or Agency:**  
**Phone:**  
**FAX (if known):**

**One Paragraph Summary of the Proposal (not so much the disciplinary content as the 'who is doing what with how many colleagues and how many students in what venues when – over which semesters or summer sessions OR what piece of equipment/research supplies/scholarly materials will be purchased for what location for which individuals and/or departments):**

**Monmouth College Faculty Proposal Initiators:**

**Department(s) and Contact Information:**

**Other externally-funded research commitments projected for the grant period:**

**Student Investigators or Assistants (names and contact information, if known): Will campus summer housing for student researchers be supported by the grant?**
